article in the Colonist on Sunday morase it has pursued toward the local Govshirtings, shawls, etc., and such a variety of
general goods as makes his stock complete
in all departments. An inspection of the
new goods is invited. Government street,
ort. When it libelled the peaceable cilith February, 1873. ourse it has pursued toward the local Goverament, as welfas toward the community tisen of Mandas by representing them in a netarally saked, "What is he driving at?" When it sought to deter people from coming to the country; by representing the Indians on the coast as having formed an alliance to make war upon peaceable settlers in the outmake war upon peaceable settlers in the outlying districts, and that the Government had withdraws all projection, and left them exposed to the fary of the savages who had thus banded themselves together with a view of murder and pilings, the question that passed from lip to lip was, what is he driving at?" Ever since the present Minipage of the districts members of the Government as well as upon the general policy of the administration as a whole, that people gratify have become completely subsected with the direct that the editor of the Golomist, is, "What is he driving at?" It is no secret that the editor of the Colomist, as a member of the Legislature, was among those who did their atmost to overthrow the McGreight Administration, and when Mr. DeCommes was called to form a new one, he was among those consulted in selection the colomist's opposition based on any defensible principle, the public would respect its honesty even though they could not endorse its conclusions; but so notorious is it that its course has been and is still actuated by purely factious motives to gratify a feeling of disappointment because the member for Nanatio was not included in the list of gentlemen deemed to possess as afficient amount of public confidence to each still actuated by purely factious motives to gratify a feeling of disappointment because the member for Nanatio was not included in the list of gentlemen deemed to possess as afficient amount of public confidence to each still actuated by purely factious motives to gratify a feeling of disappointment because the member for Nanatio was not included in the list of gentlemen deemed to possess as afficient amount of public confidence to each seed to the confidence to each to gratify a feeling of disappointment because the member for Nanaimo was not included in the list of gentlemen deemed to possess a sufficient amount of public confidence to entitle him to a portfolic in the new Administration, that its attempts to villify and misrepresent the Government neither carry weight nor do harm. When the member for Manaimo pledged his loyal support to the new Ministry, he labored under the mistaken conviction that he, as a matter of course, would be one of them; and because he was not in that way taken in and done for, the Colonist has ever since been dealing in wholesale misrepresentations, in the vain hope of turning the tide of sopular teeling, now so strongly in favor of the Ministry, against them. Hence, every act they perform is tortured into a grievous fault, and what they have not done is charged against them as a derenticion of duty amounting absolutely to criminal carellessness. This spirit of fault-finding writche. When is he driving at ?? was a confection of duty amounting absolutely to criminal carellessness. This spirit of fault-finding writche. When is he driving at ?? was a series of the manailless of Commone, first for what he did do, said secondly for what he did not do; the object being to weaken his influence as the Fremier of the local Government. It will be remembered that Mr. DeCounce inquired of Sir John A Macdonald, as the head of the Dominion Government, "whether foreign vessels have a right to navigate Johnson Strait and the inland water routes along the northwest coats of the Province between Queen Charlotte Sound and 54 deg. 40 min. The Mr. DeCounce of the Province between Queen Charlotte Sound and 54 deg. 40 min. The first of the province between Queen Charlotte Sound and 54 deg. 40 min. The first of the province without that the province of the province and the incoming Cood. It Johnson Strait for peveral years past United States and other foreign vessels have traversed the in-St Nicholas Building, Government St. Saciote Sound and 54 dog. 40 min. Jorda hattinde? It is very well known that for several years past United States and other foreign vessels have traversed the instance, a privilege which, we believe, is Position was to the United States. We do not suppose that Hr. DeComon, in calling attention to this matter, had the slightest intention of throwing any obtacles in the way of the free navigation of our instant waters by American vessels trading between Alaska and Oregon, or Chiffornia, but simply to elicit an expression of opinion upon the subject, and in that way dissert eat right to the exclusive hardystone of those waters. That our emport towns derive certain sidvatages from American vessels and shape waters the highway to and from Alaska, is madeabledly true; hat that is no reason why we alkedle not give them to understand that those are British waters, and that they marine them upon unflerance and not by virtue of fact they have no more right to the free arrugation of those waters than British vessels the motion of generance of the subject upon which it understant entire the motion of the they have no more right to the free arrugation of those waters than British vessels to particular the privilege of earrying freight between the normal and they state of the privilege of earrying freight between the privilege of earrying freight between the privilege of earrying freight between the work of the state of the Sound from Brasish vessels and gives a menopoly thereof to American between the two cases cited, that wherein and of the privilege of earrying freight between the two cases cited, that wherein it is possible for American waters, it is impossible for American waters, it is impossible for fact he was the effectually suttated the principle involved in the annual position without navigating American waters; but the principle involved in the annual position of the case of it out of Gerenment were to day the trade between here and Alashachat is now waters and Alashachat is now earlied as in American between the waters, the practical effect of that prohibition would be to throw into the hands of
British ship-owners a large share of the
trade between here and Alaska that is now
carried as in American bottoms. We have
see desire to see American ships banished
from our waters, but we contend that Mr.
DaCasmas deserves great credit for bringing
this matter before the Dominion Government,
and eliciting from them an expression of
opinion upon a subject of so much importance to the maritime interests of this Province.

PANAMA STRANGE.—Per the steamer which acrived at San Francisco from Penama on the 21st inst., a large quantity of English freight was brought up, amongst which was the balence of Rusers. Turner, Beeton & Tunstall's assertment of Spring goods. The hour of arrival was, however, too late to be the same being transferred to the steame France Affred in time for the trip which she completed on Saturday morning; the goods will, however, arrive here in due course, and will surpass anything of the sort-previously introduced to the public.

(Signed) JOSEPH HOWE: Mr. H. C. F. eicher to the Secretary of State

Governor-General's Office

Ottown, April 4th, 1873.

I have the honor to enclose herein His Excellency the Governor-General's reply to the Address of the Legislative Assembly of British Columbia, and to request you will have the goodness to forward it to the Lieutenant Governor of the Province.

Gentlemen of the Legislative Assembly of the Province of British Columbia :-Province of British Columbia:

In returning to you my sincere thanks for the cordial expression of gratification at my appointment to the Government of the Dominion, conveyed to me in your Address, I desire to assure you of the clustere pleasure it affords me to witness the praofs of the devoted forally to the Throne which are comprised throughout the Dominion, no less on the shores of the Pacific than on those of the Atlantic.

shores of the Pacific than on those of the Atlantic.

I trust that I may, at no distant time, have an opportunity of visiting British Columbia and making myself befor acquainted with a portion of the Dominion, soon I hope to be brought is closer connection with the Bartern Provinces.

In the meanwhile I shall watch with deep interest the effect of all measures tending to the development of its resources, feeling cure that your carnest attention will be given to whatever may conduce to render the future of the vest confirm West of the Rocky Hountains commensurate with the hoper that we entertained regarding it. You may rest as wired that she effect will be spared on my part to further as far as lies in my power the moral and material prosperity of the Dominion, and my hopes of success are encouraged by feeling myself united in these labours with emineut persons, like yourselves, who are develing their best talents and energies to so soble an oject,

SPECIAL TO THE DAILY STANDARD. LAST NIGHT'S DESPATCHES

Fearful Loss of Life by the Fall of a Bridge, and a Land Slide.

BASTERN STATES.

Dixos, ILL., May 4—A terrible accident, involving fearful loss of life, occurred here this afternoon, while the rite of baptism was being administered to a number of recent converts to the Baptist Church, here, at a point in Rock river just below the iron pridge.

About 200 persons, including many ladies and a number of children, were gathered on the bridge to witness the ceremony, when anddenly the bridge gave way, and precipitated its living freight into the stream below. The scene that ensued was intensely terrible, as struggling victims endeavored to free them-

while others were fortunately within reach of those on shore.

Up to six p.m. thirty-two bodies had been

taken in. It is almost certain there are others still under the wreck of the bridge; 24 were rescued alive, but more or less injured, some fatally.

Midnight-Up to this bour no other bodies

have been recovered at this point, but several fighting. Such successes on the part of the are reported picked up at Sterling, six miles below, and doubtless the swift current has borne others even further down the river.

The general estimate of the number lost is from 20 to 100. is from 90 to 100 . It was stated in previous dispatches that 32 bodies were recovered be-fore dark, five other bodies fluated down

EUROPE

Fr. Perseascue, May 4—Dispatches from Orenburg report that a column marching from that point against Khiva find its pro-gress difficult, and make only 20 versts a-day. The vanguard arrived at Tobusskule on the 16th of April, and the main body was at

Ivanastran.

New York, May 4-A great calamity has fallen on a town called Piescobaldo, caused by a land-slide from neighboring mountains, by which 44 houses were destroyed, and 36 The great mass which destroyed the town

demmed up the river, and the destructive effect of the inundation, is expected to be added to other misfortunes.

Ther. Castero and the widow of Dr. Haltie,

both residents of Melphilla, are to proceed to England as witnesses in the Tichborne case; the real Sir Roger lived some time in the

SOUTE AMERICA. NEW York, May 4 - Reports from the City of San Salvador with respect to the earth-quinks which ruined the city, say abocks still continue, and the Government palace, which survived the great shock which laid the city is ruins, had also given way and fallen to the ground. A great many people had been injured, and many had lost their reason. It is now doubtful whether the

authorities will persist in their determination; to re-build the capital or its eld site. Istermation up to date 15th ut., shows that the United Mates exploring expedition baving faished a minute survey of the lake, was now occupied in examining the capa-bilities of San Juan river. All necessary measurements, surveys and calculations have ore made along the river between the lake and two rapide; results of these were re-

General Dispatches.

Tegento, April 28 .- A special from For Garry, Manitoba, reports from the interior of the State that there has been fighting between the American troops and the Blackfoot Indi-act. A large number of Americans were killed. It is feared this is the beginning of trouble in the Blackfoot country. The ludilige to the number of seven or eight thousand and threatening the interior settlements and

Sax Drugo, May 1 .- From Mezi o we learn that Lozada is strongly extrenched in the mountains back of Jepu, with a force of 4,000. Six thousand Federal troops are in the field A rising is feared in the Black River and Powder Hill coourry, should a new expebe organized to seek to open that country. The Grows will have a counsel with the Nex Perces this Summer, but they do not expect trouble from them seither do they expect any trouble with the Kiamatha Snakes or other Indians in the Modod country.

YESKA, May I.—Captain Silva and W. S.

Johnson arrived from the front this afternoon.

They left the area Gilland.

They left Conerat Gillem's camp Tuesday a roing. We learn that there has been nothing done since the battle of the 26. It is perfect fully to attempt to try to whip the Modocs in the manner thus far pursued. LONDON, April 30-in the House of Com

mons this afternoon, Jacob Bright moved to second reading the Woman's Disabilities Bill. A debate followed, at the close of rejected by 2/2 to 105.

The race for the 2,000 guines stakes at New Market to-day, was won by Gang For-

Madaid, May 1-The Carlists continue to hurs railway stations, and destroy telegraph

to Vienna, May 1—The World's Exhibition was inaugurated this a t-moon by the Em peror with imposing ceremonies, in the presence of a vast assemblage from all parts of the earth. The American department remains in confusion; but Minister Jay is en-deavoring to repair the effects of previous mismanagement Plocus, May 1 -In the Raymond and Ely

suit a verdict was given for Herm es. It was delivered at 9:30 tale morning.

There is great excitement on the street About \$40,000 changed bands on the reudition of the verdict

SAN PRANCISCO May 1-The Colorado, for Chins, to-day, took \$205,000 treasure and a carge valued at \$100 000. M. Yura, Japan-esr Commissioner of Agriculture, sailed. He Look four Durham cows and 500 rabbits. The Grand Army of the Republic bave taken measures to participate in the honor to be paid to the remains of General Camby. There were five May-day picaces from the

city to-day.

The coinage of the Mint for April was \$1, The Mining S ock market has been greatly excited all day over the verdict in the Hermes case. The money lost and won is the topic

Several more fatal cases of horse disease A theatre, to sort \$250,000, is to be built

has caused the most intense excitement and is the universal topic of conversation.

PROVINCIAL DISPATCHES

[BY MAINLAND TELEGRAPH LINE.]

BARKERVILLE, May 3.—Barnard's express arrived with mails at 2 p. m., to-day. Pear-son's express arrived about three house later. From to-day's Sentinel we glean the fol-lowing mining intelligence:

WILLIAMS CREEK-A cave occurred in the upper portion of the Cariboo claim last Sun day, and the creek running into it; the comday, and the creek running into it; the com-panies working below were drowned out. The cave has since been fixed up and the companies will resume work on Monday. The Ballarat Co. washed up 22 oz. in the beginning of the week from two and a-nalf shifts work, but on account of the wetness of the diggings have been obliged to knock off two picks and are only working two at

LOWHER CREEK .- The Victoria Co. has completed their new shaft and are now moving their machinery and preparing to work from it. The Calaveras Co. will be taking out pay next week.

JACK OF CLUBS CREE.-The Two Sister t'o are paying well; the Discovery Co. are still prospecting

WILEON GULCH.—The McCarmick Co. have struck good prospects in their tunnel and are fixing up to wash. ASTLER CREEK-The Lothair Co. will be ready to take out gold in about 10 days; the Mason Co. are sawing timber for the flume and utting up machinery; the Eureka Co. have not sufficient water to run the wheel; several companies above the canyon are pre-

paring to work. LIGHTSING CREEK.—The Rose and Spruc-Companies have suspended work till after the reshet; the Point Co. have four feet of water in the diggings, they expect to get it out on Manday; the Victoria Co. has got the water out and started below; the Vancouver Co cleaned up 50 oz. on Wednesday; the Gladstone expect to have their drain ready in a few days; Eleven of England got out a little gold, the ground is looking better. The Ophir Co. is making good headway with the drain. The freshets this spring have done great damage to the roads and destroyed the bridges four miles from Al xandria, and the bridge at Australian ranch together with a large barn at the latter place have been car-ried away by the floods.

At Quesnelle acres of Baker's ranch have been washed away, and over 14 yards of the road at Cottonwood is gone. A heavy slide has also taken place from the hill above, carrying away a large portion of road. The outlay required to repair those damages will be considerable, and it has been suggested. that instead of spending large sums in patch-ing up the section of the road at Cottonwood which is washed away every spring, the Government would act wisely in building a new road at a higher level which can be done at a small cost.

BARKERVILLE, May 4.—Barnard's express left here at 4 o'clock this morning with mails and Mrs. J. H. Halt as passenger for Victoria.

Peurson's express left at the same time o passengers. IV MHOL

A. GILNOUS, Merchant Tailor, has remove his place of business to the store adjoining the Colonial Rotel, Government st-eet, fou doors from Yates street, where he is prepared to sell, at reduced rates, Custom Made Cloth, ing and Gents' Furnishing Goods. Also Garments made to order, according to the

A call was issued this merning for a meeting of ladies at the Methodist Church for the purpose of forming an organization to collect for the wounded soldiers at the front, list, bandages, etc.

Gen. Jeff. C. Davis and party did not start for the lava beds to-day, as was anticipated. and drove it some distance. Many vessels are loaded, and sails bent for a voyage west ward, but it is appounced that the ice in the Gaps will be an obstruction to navigation fo

Evangeline.

We had at home a horse (so-called, Although she was a mars) well staited. Although she was a mars) well staited. And groomed by one who litted, at least, To curry favor with a beast, And with a comb and brush and care. To scraps acquaintance with her hair. Hid name was liam, of handsome mien; Her name was sweet Evangeline. The other day he, laughing, cried: "Bot mare she is most merrly died! I dinks she's got a coit," he said, "Dot's coming in her throat and hand." On horsepitable care intent. We straightway to the stable went, And there we saw a sight would turn To icebergs hearts that Bergh-like burn. We saw that death had her in thrall—There was a coughling in her stall.

we straightway to the stable week,
And there we saw a sight would turn
To icebergs hearts that Bergh-like burn.
We saw that death had her in thrall—
There was a coughthin in her stall.

"Bone sore," and we—in French we spoke—
Ah me! she did not like the choke.
A tear stands in her rheumy eye—
Alas! that such a beast should cry!
A tear tears down her roomy noose,
And saddy or the floor it goes.
A seene of we her stall encased;
She acted like a beast abased.
Her bone the skin no longer hides;
Her hide hangs heavy on her sides:
And it's plainly to be seen
She is the true Evangel-lean.
Her nose droops down between her knees;
From pain whe needs some ewift surcease—
There was no case in her disease.
The horse's cough is fough and hoarse,
In fine, she cannot like, of course;
We offer her good oats and hay;
She shale o her head and answers neigh.
There, helpless as a child she stands,
She cannot use her sixteen hands.
Defeat before and after hold
A body trembling, clammy cold.
And thereby hangs a tall, untold;
Ashudder shakes her shrinking bones,
An equine-noctial storm of groams,
As though she cursed the day her dam
Had brought her to this world of sham.
We must admit this steady steed
Is "hors du combatt" now indeed.
A veterinary surgeon comes
Unheralded by pomp of drums,
But blowing trumpet of his own
To make his healing virtues known.
He wear his crumpled tile awry,
And gtares around with hostile aye.
He took her necktie from her throat;
He lifted up her rubber cost,
And then began to rub her down
With hand and sleave and grunt and frows,
His right hand seake the source of pain,
His left keeps salling o'er the mane,
Her front and rear he doce assail,
And shocks our feeling with her tall;
While she, like minstrel from the war,
Played loudly on the sweet catarrh.
Then, turning to us, slowly he said,
The while he ducked his goose-like head:
"I say, I think this old galoot
Has got the binated epizoot—
You see, she runs so at the snoot!"
They drarged her off, so sad and slow.
To the patent super-horse-fate Co.
She died

VICTORIA WATER WORKS:

RIGAUD'S COLORIGENE

Worth Samen Matters.

SUPPER ROOMS Government Street, Victoria. MR. P. ROST RESPECTIVELY IN

ing the entire field for the operations of the undertaing.

The Tannery operations only commenced in August last, and as the tanning process involves a peried of several months, the business of this l'spartment is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty its obtaining an abundant supply of Hisles, the outturn will be sufficient for the supply of the general demand for harness, mill beiting, &c, in addition to the requirements of the floot vactory.

The Belmont Boot and Shee Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realised.

The value of industrial institutions to the well being of a y-country is indisputable, and as the hides produced in the Province are now being manufactured into leaster, which is turn is made into toots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is unfaciently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are in any way interested that this company will become A Variety of Boups ready each day at 12 noon
